

Professional Grade Camera Light With Self-Contained Quick-Swap Rechargeable Battery Pack

The EyLight is the world's first professional camera light with an internal quick-swap rechargeable battery that delivers sustainable power to traditional tungsten and LED lamps in a compact "all-in-one design". Built on the industry standard Frezzi Mini-Fill's form factor, it's ideal for handheld cameras that have no way to power a professional light. Finally, get the professional quality light you need and extra run time for your camera all without cables.

Quick swap high energy rechargeable battery

Ideal lighting solution for ALL format cameras

OUTPERFORMS ALL OTHERS!

3.5 HOUR RUN TIME!

100fc @ 5 Feet!
30° Flood

Amazing 75 Watt Output!

90 CRI

Output is equivalent to a 75W tungsten bulb with LEDEX lamp and only consuming 8 Watts of power!

EyLight GREEN technology outperforms "AA" LEDs while saving money and the environment!

Sustainable ECO Friendly Rechargeable Battery Pack with Energy Gauge

Continual replacement of AA batteries are expensive and bad for the environment

Features

- Plug-In self-contained battery, no cord or cables required
