

Frezzi®

FLB-240

Introducing the most powerful and lightest weight on-camera professional battery. The FLB-240 is designed for the professional videographer who requires a lightweight, dependable battery that offers the most capacity to dependently run a camera all day.

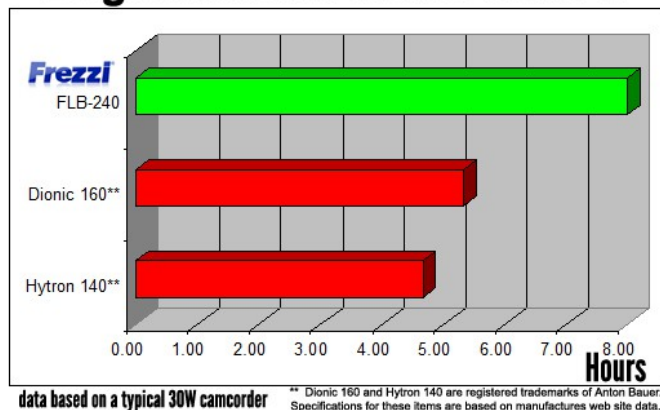

This incredible battery weighs just 3.1 lbs and connects directly to all cameras with an A/B or V-Lock bracket. Frezzi's simultaneous FLC-2 dual channel charger with power supply and FLC-1 compact single channel chargers are available.

- 240WH Battery can deliver 8 hours of runtime with 30W camera load*
- Can handle a camera & light together up to 85W
- Thermal, overdischarge, overload, over-current protection
- Built-in charge port to allow FLC-1 compact travel charger option
- Advanced LED meter with sleep mode and low battery flashing indicator
- FLB-100 at 100WH available- Worlds Most Powerful legally transportable Li-Ion Battery

Only 3.1 Lbs!

Longest Run Time in the Business!

Perfect Balance with FLB-240

93942	FLC-4V	Quad Li-Ion Charger for V-Mount

Professional Lithium-Ion Battery Chargers

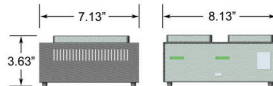

Frezzi's Lithium-Ion battery chargers are available in either a Dual simultaneous charger with 50W Power supply that can be used while charging or an extremely compact economical single channel travel charger weighing in at just 8oz. The FLC-2 Dual Channel Charger / Power Supply comes with (2) Anton/Bauer® type mounting plates and can charge all Frezzi FLB-100, FLB-130 or FLB-200 Lithium-Ion batteries. Frezzi's FLC-2V Dual channel charger comes with (2) V-Lock mounting plates, and can charge all Frezzi FLB-100V, FLB-130V or FLB-200V as well as Sony or IDX V-Lock style Lithium-Ion batteries. Both the FLC-2 and FLC-2V indicate level of charge status with LED indicators on each channel. The FLC-1 Single channel travel charger can charge all Frezzi FLB series batteries via a unique built-in charge port in all FLB series batteries. All FLC model chargers have auto AC voltage select for worldwide operation.

- Dual Chargers offer simultaneous charging
- 50W power supply can be used while charging (XLR-4 Connector)
- Single channel is smallest & lightest weight charger available in the world
- Feature rich, low cost
- CE & UL Approved
- Auto Voltage Select for worldwide operation.

Professional Lithium-Ion Power Packages

Frezzi's New Lithium-Ion Camera Power Packages come complete with (2) Lithium-Ion Batteries and (1) Dual Channel Simultaneous Battery Charger with 50W Power Supply. The Power packages are available with your choice of 100WH or 240WH batteries, all have advanced LED meter with sleep mode and connect directly to any camera with either an Anton/Bauer® or V-Lock battery bracket. The Power packages also include an advanced Dual channel simultaneous battery charger with 50W power supply that can be used while charging.

Lithium-Ion Power Packages for A/B Mount Cameras

Model No.	LP-1	Item No.	93930	Description
Item No.	Model No.	Qty		
93900	FLB-100	2		14.8V 100WH Lithium-Ion Batteries with advanced meter, each weighs only 1.9 lbs and can run a camera drawing 25W for 4 hours
93920	FLC-2	1		Dual simultaneous Lithium charger with 50W power supply you can use while charging both of your batteries.

Model No.	LP-3	Item No.	93932	Description
Item No.	Model No.	Qty		
93903	FLB-240	2		14.8V 240WH Lithium-Ion Batteries with advanced meter, each weighs only 3.1 lbs and can run a camera drawing 25W for 8 hours
93920	FLC-2	1		Dual simultaneous Lithium charger with 50W power supply you can use while charging both of your batteries.

Lithium-Ion Power Packages for V-Mount Cameras

Model No.	LP-1V	Item No.	93933	Description
Item No.	Model No.	Qty		
93900	FLB-100V	2		14.8V 100WH Lithium-Ion Batteries with advanced meter, each weighs only 1.9 lbs and can run a camera drawing 25W for 4 hours
93921	FLC-2V	1		Dual simultaneous Lithium charger with 50W power supply you can use while charging both of your batteries.

Model No.	LP-3V	Item No.	93935	Description
Item No.	Model No.	Qty		
93903	FLB-240V	2		14.8V 240WH Lithium-Ion Batteries with advanced meter, each weighs only 3.1 lbs and can run a camera drawing 25W for 8 hours
93921	FLC-2V	1		Dual simultaneous Lithium charger with 50W power supply you can use while charging both of your batteries.
