

Professional Camera Light Small, Powerful & Versatile

The Frezzi ProLight is the new standard in professional camera lights. Based on the industry's leading camera light, the Frezzi Mini-Fill, it retains all of the renowned features and adds today's must needed capabilities.

**Amazing LED
75W Output**

New Features

Quick Release

The ProLight can be easily detached with the quick release feature. The low-profile base stays neatly wired to the camera body. The camera now fits neatly in camera bag.

Articulating Arm

ProLight's rugged aluminum articulating arm allows positioning at any desired height or forward location to avoid lens hood shadow.

USB Charge Port

The ProLight is the only camera light with a built in USB charging port that can charge any USB powered device from your camera battery.

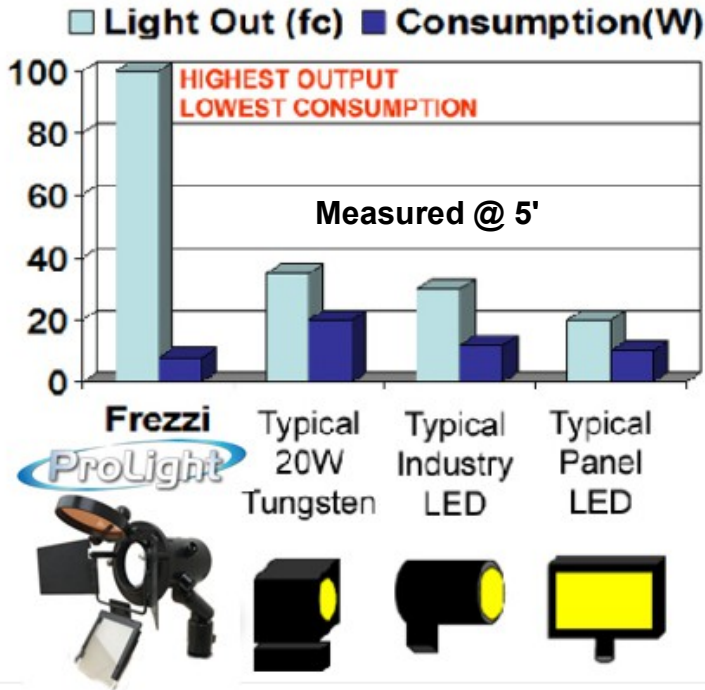

Pass-Thru PT

Allows connection of wireless or other broadcast device to the same Power Tap port as the ProLight.
